

# COVID-19 Response Support From Ipas

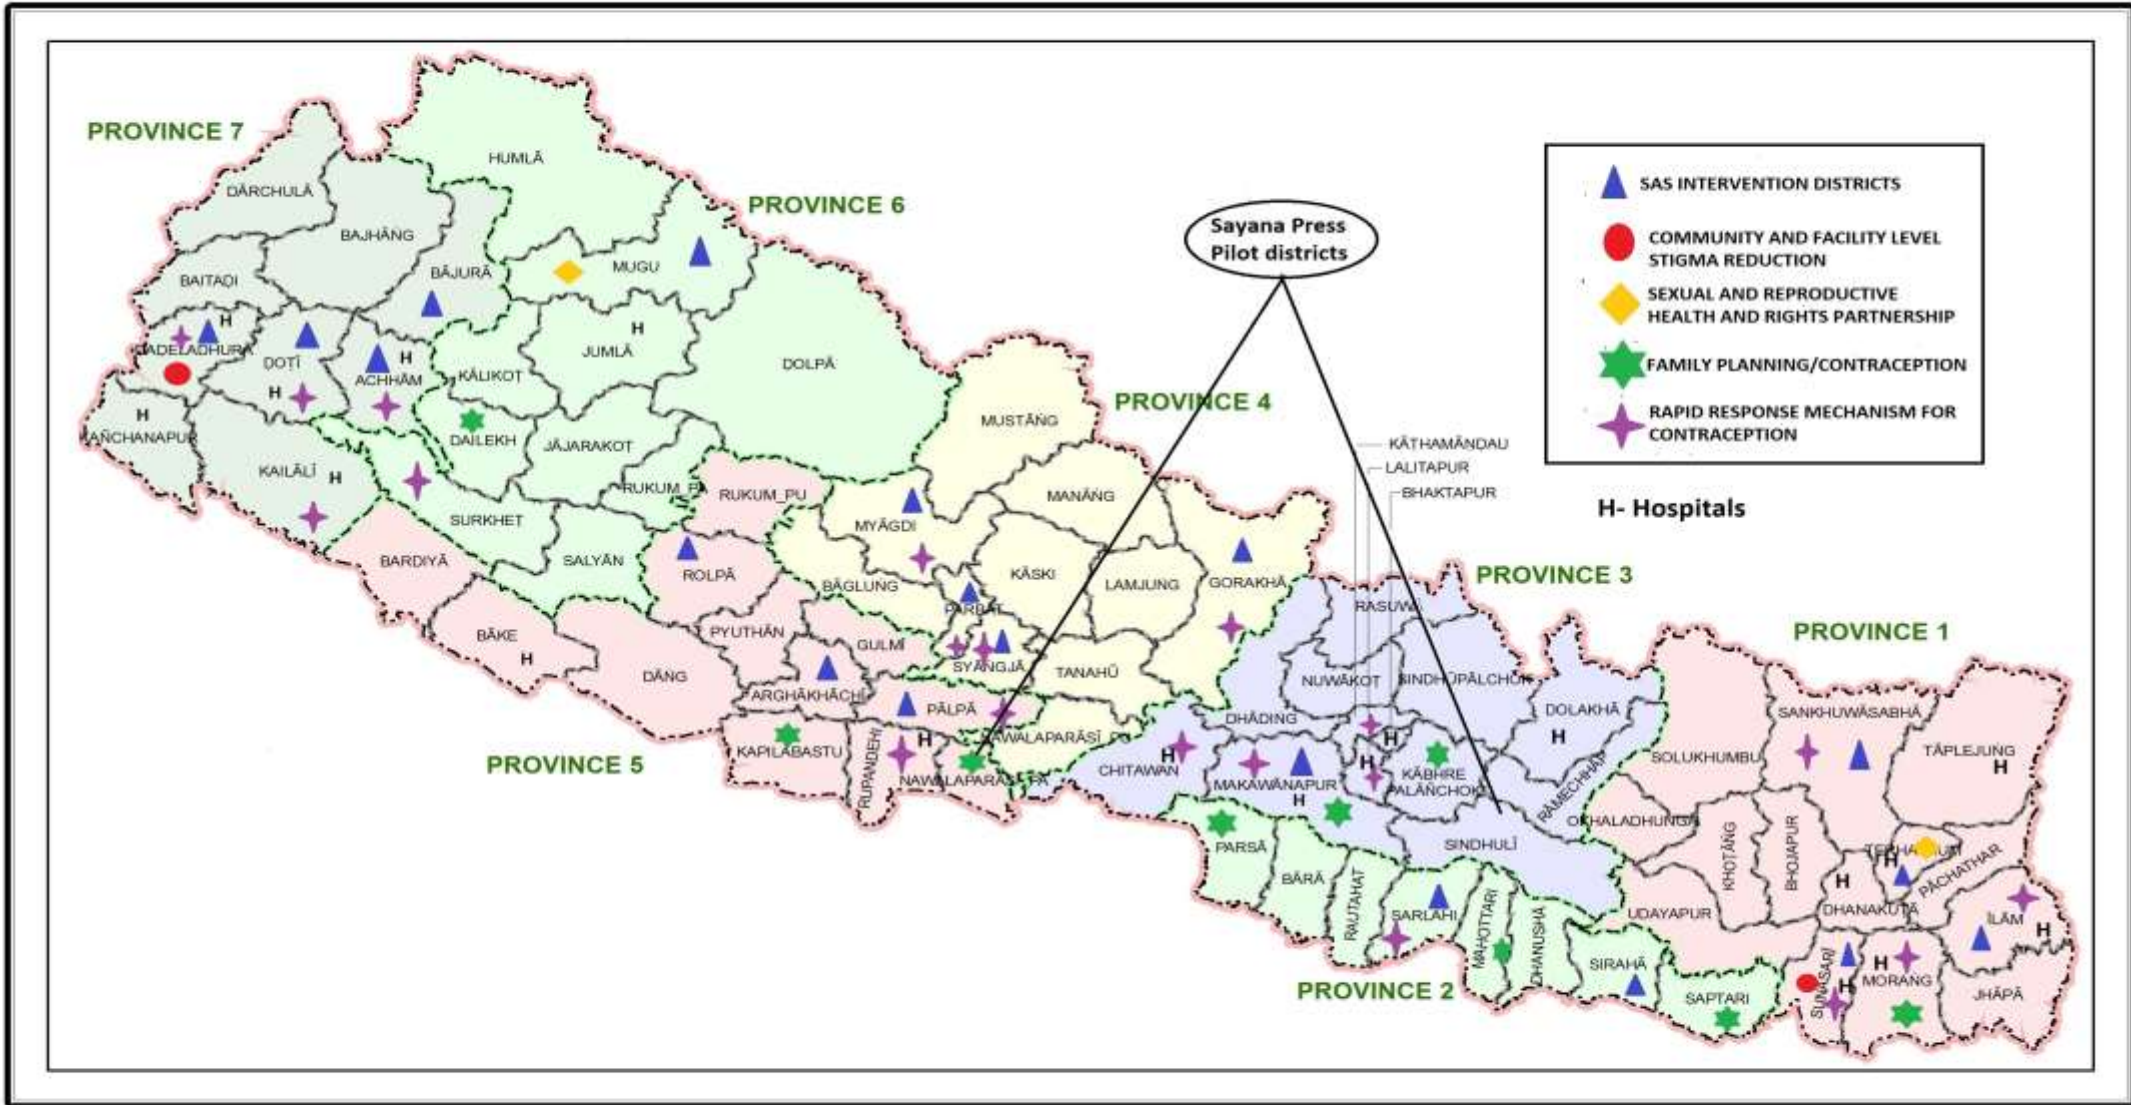

Presented by : Lhamo Yangchen Sherpa (MD, PhD)  
Sr. Advisor Research & M&E/Ipas

# Introduction

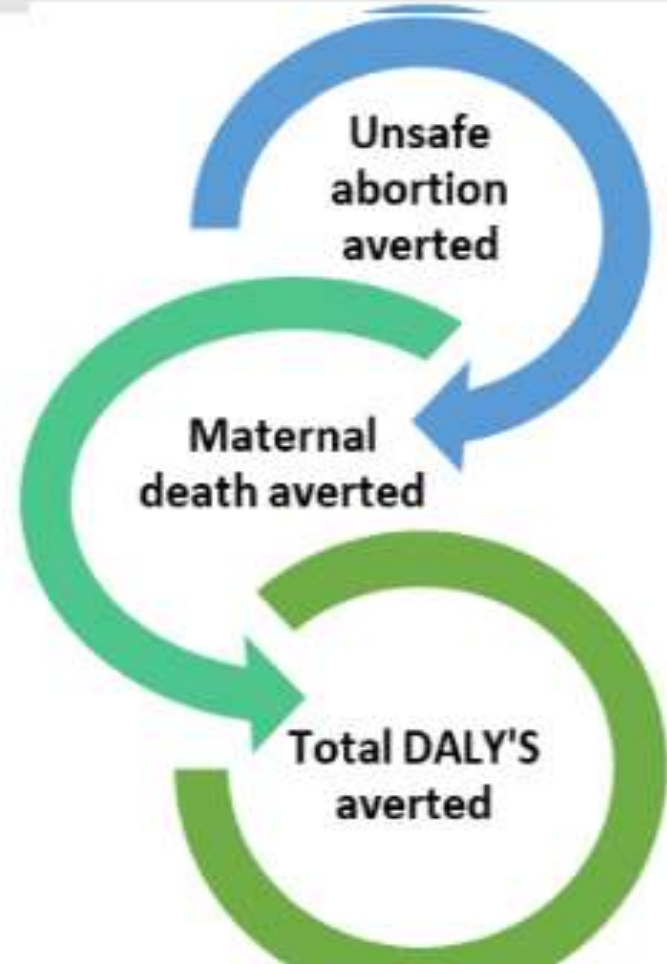

Ipas Nepal, is a non-governmental organization, has been providing technical support to the Ministry of Health and Population (MoHP) to initiate and expand Safe Abortion Services (SAS) in the country since the legalization of abortion in 2002. Ipas also works for the provision of post abortion/standalone FP services and contraception

# Background

- Ipas Nepal's support to MoHP-
  - expanding SAS access up to the community level via task shifting
  - piloting and scale up of Medical Abortion (MA) service and post abortion FP services
  - initiation of second trimester service
  - It has also contributed to Safe abortion policy formulation, SMRH ACT 2018, FCHV Strategy 2020, RH Protocol, NMS Vol 1 revision
  - At present under the leadership of FWD, DoHS, MoHP and with the support of DFID, Ipas is piloting a contraceptive method- Sayana press

# Our Impact

## Fiscal Year 18/19

10,287  
Unsafe abortion averted

22  
Maternal death averted

1,280  
Total DALY's averted

## Fiscal Year 19/20

16,348  
Unsafe abortion averted

33  
Maternal death averted

2,535  
Total DALY's averted

# Let's take a closer look at Ipas's Health Systems work...

306

Facilities supported

462

Providers supported

47,753

Number of Safe abortion services performed in Ipas intervention sites during FY18-FY19

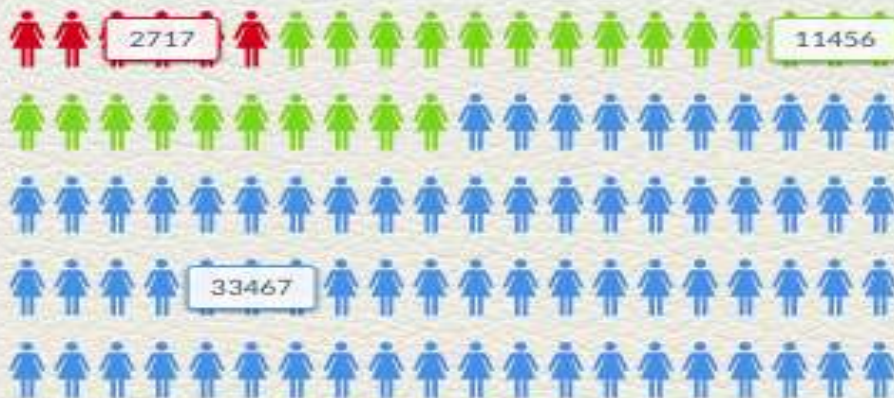

44,718

Number of induced procedures

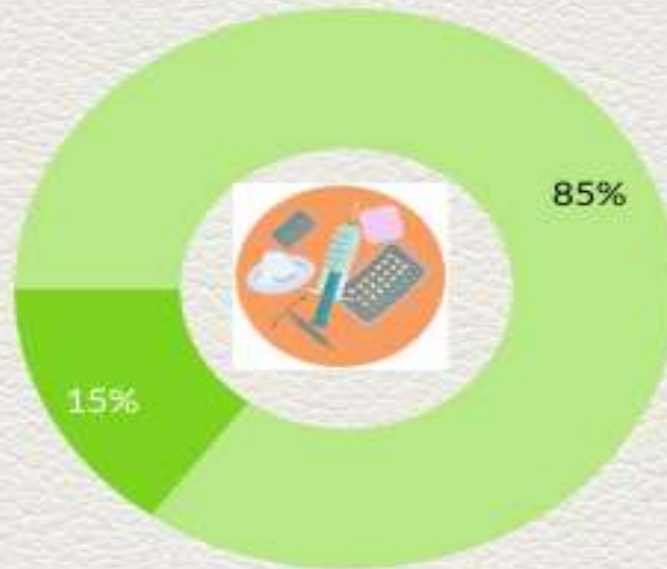

3,035

Number of PAC procedures

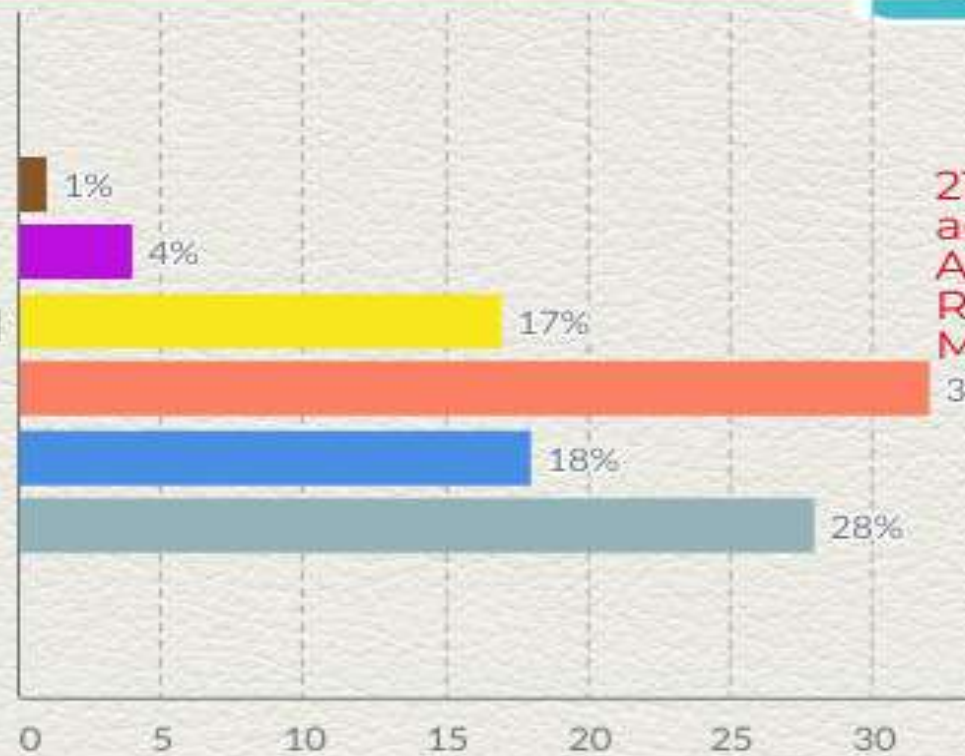

■ 19 years and younger (5.69%) ■ 20 - 24 years (23.98%)  
■ 25 years and older (70.05%) ■ age missing (0.29%)

## POST ABORTION CONTRACEPTIVE ACCEPTANCE

Yes (85%) No (15%)

21 % of women accepted Long Acting Reversible Method

Female/male sterilization IUDs Implants  
Injectables Oral contraceptives Condoms

# Sayana Press®-depot medroxyprogesterone acetate-sub cutaneous (DMPA-SC)

महिलाले प्रयोग गर्ने तीन महिने गर्भ निरोधक अस्थायी साधन

## सायना प्रेस

Sayana Press®

तीन महिने सुई

"भरपर्दो सायना: गर्भ रोक्छ तीन महिना"

14 Public Health Facilities in Nawalpur and Sindhuli currently providing services

42 Providers Trained to provide Sayana Press

1184 women received Sayana Press injectable
